

32" SNOWBLOWER OPERATOR'S MANUAL

SECTION SECTIO

)RM NO: 033379B (4-95)

PART NO: 833007 (48641)

PRINTED IN USA

TO CONTINUE ITS PROGRAM OF QUALITY AND DESIGN IMPROVEMENTS, THE MANUFACTURER RESERVES THE RIGHT TO CHANGE SPECIFICATIONS, DESIGNS AND PRICES WITHOUT NOTICE AND WITHOUT INCURRING OBLIGATION. THE MANUFACTURER ALSO RESERVES THE RIGHT TO SHIP WITHOUT NOTICE AND WITHOUT INCURRING OBLIGATION.

NOTE

Read this manual carefully and learn to operate and service your snowblower before using it.

To keep the warranty, the snowblower must be maintained and operated as directed in this manual.

All references to "left-side", "right-side", "Front" and "back" are given from the operator's position.

Use the serial numbers to ensure prompt and correct service when ordering parts, requesting service or making inquiries.

SNOWBLOWER SERIAL NUMBER:

Look for this symbol to point out important safety precautions. It means -- ATTENTION! BECOME ALERT! YOUR SAFETY IS INVOLVED.

CAUTION: A CAUTION identifies safe operating practices or indicates unsafe conditions that could result in personal injury.

WARNING: A WARNING describes a condition where failure to follow the instructions could result in severe personal injury.

DANGER: A DANGER designates a condition where failure to follow instructions or heed warning will most likely result in serious personal injury or death.

CONTENTS

INSTRUCTIONS FOR SAFE OPERATION

Improper use of this equipment can injure people and damage the equipment. People using or servicing this equipment must read and follow the instructions in this manual.

It is important to understand that this manual and any other Gravely instruction manuals do not cover every possible danger. It is impossible for Gravely to know all possible dangers in operating and servicing the equipment.

The purchaser must give these instructions to the people operating and maintaining this equipment. These people must use eye and foot protection.

1.1 Training

- 1. Read this manual and the tractor operator's manual carefully. Follow the instructions, cautions, warnings and dangers listed on decals and in the operator's manuals.
- 2. Learn the location and function of all controls.
- 3. Learn how to use the controls to stop the wheels and snow thrower quickly.
- 4. Never permit children to operate the equipment. Do not allow adults to operate unit without proper instructions.
- 5. Safe operation of this equipment requires your complete and unimpaired attention at all times. Do not operate unit after or during the consumption of medication, drugs or alcohol.
- 6. Use only Gravely accessories and attachments.
- 7. Keep people and animals away from the operating area.

1.2 Preparation

- Use caution with gasoline. Gasoline is very flammable and its vapors are explosive. Keep it in a clean and approved fuel container. Never put gasoline in the fuel tank while the engine is running or hot. Clean up spilled gasoline before starting engine. Never allow smoking materials, sparks or flame (match, pilot light, etc.) near equipment or fuel container.
- 2. Check fuel supply before starting engine. Fill fuel tank outdoors with extreme care. Do not fill fuel tank indoors, when engine is running or when engine is still hot from operation. Replace fuel cap securely and wipe up spilled fuel and allow vapors to dissipate before starting engine.

- 3. Inspect and clear the work area (prior to snow) of rocks, glass, metal, bones and any other foreign objects that might be picked up and thrown or tangled in the snow thrower. Stay alert for holes and other hidden hazards. Mark obstacles that will be hidden by snow.
- 4. Before starting the engine, put the PTO control in the "OFF" position and the direction control lever in the neutral "N" position.
- 5. When hauling the equipment, connect the chassis to the transporting vehicle. Never connect from control levers, rods, or like items that could be damaged.
- 6. Adjust the snowblower skids to lift the snowblower above gravel so that it does not get into the snow thrower and is discharged.
- 7. Wear eye protection to protect eyes from objects which may be thrown from the machine. Do not wear loose clothing. Wear adequate winter outer garments and footwear which will improve footing on slippery surfaces.
- 8. Before making adjustments or servicing, move the PTO control to "OFF" position, turn the ignition switch to "OFF", remove the ignition key and wait until all moving parts completely stop.

1.3 Operation

- 1. Be certain that all shields, guards, and interlock switches are in position and functioning properly.
- 2. Do not use the equipment in the dark without adequate lighting.
- 3. Keep the equipment in good condition. Maintain it as directed in this manual.
- 4. Keep away from moving parts. Keep away from the discharge chute at all times.
- 5. Do not let people other than the operator near the operating equipment.
- 6. Use a low gear, high engine speed and put the PTO control in the "ON" position before moving into the snow. Engage the direction control lever slowly when operating on slopes.
- 7. Look for and keep away from hazards.
- 8. After hitting an object, move the PTO control to the "OFF" position, turn the ignition key to the "OFF" position, remove ignition key and wait for all moving parts to stop, thoroughly inspect the snow thrower for any damage and repair before restarting and operating the snow thrower.
- 9. Look behind when operating in reverse. Look for people and hazards.

- 10. Operate only from the operator's position, just behind the handlebars. Always be sure of your footing and keep a firm hold on the Handles. Walk, never run.
- 11. Do not clear snow across the face of slopes. Exercise extreme caution when changing direction on slopes. Do not attempt to clear steep slopes.
- 12. If there is a sudden change in the sound or vibration of the equipment, stop the engine and check for damage. Repair any damage or failure before continuing operation.
- 13. Never run the engine indoors except to move it outside and only with doors open. Exhaust fumes are dangerous.
- 14. Go slowly on slick surfaces. Exercise caution to avoid slipping or falling, especially when operating in reverse.
- 15. Disengage power to snow thrower when unit is being transported or is not in use.
- 16. Do not overload machine capacity by attempting to clear snow at too fast a rate.
- 17. Exercise extreme caution when operating on or crossing gravel drives, walks or roads. Stay alert for hidden hazards or traffic.
- 18. Follow traffic laws when operating on or near a road.
- 19. Direct snowblower discharge away from windows, cars, buildings and people which could be struck by objects thrown with the snow. Thrown objects can cause severe injury.
- 20. Before leaving the operator's position, move the PTO control in the "OFF" position, turn the ignition key to the "OFF" position and remove the ignition key to prevent unauthorized use.
- 21. Allow the snowblower to clear of snow before placing the PTO control in the "OFF" position. Stop the engine and remove remaining snow and ice before putting the equipment in storage.

1.4 Maintenance and Storage

- 1. Replace all parts that become damaged or lost.
- 2. Check the operation of the operator presence controls before operating the equipment.
- 3. Do not overspeed the engine. Do not override the governor.

- 4. Do not touch equipment parts which might be hot from operation. Before attempting to maintain, adjust or service allow such parts to cool.
- 5. Keep all nuts, bolts and screws tight and be sure equipment is in safe working condition. Check shear bolts and all hardware at regular intervals.
- 6. Refer to storage section of this manual and the tractor manual for important instructions if equipment is to be stored for an extended period.
- 7. Never store equipment with fuel in tank inside a building where fumes may reach an open flame or spark. Allow engine to cool before storing in any enclosure.
- 8. Maintain or replace safety and instruction decals as necessary.

OPERATING INSTRUCTIONS

2.1 Preparation:

- Read the tractor and snowblower operator's manuals. Be familiar with all controls and follow the safety precautions outlined in these manuals. Know how to STOP the tractor and snowblower quickly in an emergency. See figure 1.
- 2. Check the oil level in the gear case. Add oil as required to maintain proper level. See section 3.
- 3. Service the tractor as described in the tractor operator's manual.

WARNING:

Moving parts can amputate fingers, toes and cause serious injury

- a. Before servicing, cleaning or making adjustments to any attachment:
 - 1. Disengage power to attachment.
 - 2. Shut off engine.
 - 3. Make sure attachment parts have stopped revolving.
 - 4. Disconnect engine spark plug cable to prevent accidental restart.
- b. Keep children, bystanders and pets out of the working area.
- c. Keep hands, feet and clothing away from power driven parts.
- d. Snow is best removed as soon as possible after it has fallen.
- e. Snow should be discharged with the direction of the wind.
- f. Adjust the skids and scraper blade according to the instructions in section 3.

2.2 Operation:

1. Adjust the deflector angle using the chute deflector control at the operator's left. Raising the deflector will cause snow to be thrown further. Lowering the deflector will shorten the distance that the snow is thrown. Turn the "T" handle to adjust the deflector; PUSH to lower the deflector; PULL to raise the deflector. A quarter turn of the handle will lock the deflector in position.

- 1. Discharge Chute
- 2. **Chute Deflector**
- Discharge Chute Control 3.
- Chute Deflector Control 4.

Figure 1

2. Rotate the chute crank to turn the discharge chute so that the snow ill be thrown in the desired direction.

CAUTION: The auger and gear case are protected by a slip clutch designed to slip if a solid object enters the auger. The auger will start running when the obstruction is cleared if the PTO control is in the "ON" position.

3. For maximum snow removal and discharge, operate the engine at full throttle and regulate the travel speed with the gear control lever. Put the range control in the "LO" position.

SERVICE INSTRUCTIONS

3.1 Lubrication:

- Check gear case oil level periodically. Position snowblower in the lowest position on a flat surface. Oil level must be up to oil fill hole. Change oil every 25 hours or once each season, whichever comes first. Use SAE 80W-90 gear oil. See figure 2.
- 2. Grease discharge chute base shown in figure 3, approximately once a season.
- 3. Service the tractor according to the instructions in the tractor operator's manual.

3.2 Skid Adjustment:

When operating on a rough surface or over gravel, lower the skids so that the snowblower will be raised above the gravel or ground.

Adjust by loosening the mounting bolts, sliding to the desired position, and retightening the bolts.

3.3 Scraper Blade Adjustment:

When the scraper blade has worn near the brace, loosen the mounting bolts and advance the blade and retighten the bolts. Replace the blade when all the adjustment has been used.

- 3. Left Auger

- 4. Oil Fill Plug
- 5. Slip Clutch

Figure 2

- 1. Discharge Chute Base
- 2. Worm
- 3. Nut

Figure 3

3.4 Chute Crank Adjustment

- 1. Loosen the nut securing the worm clevis to the bracket. See figure 3.
- 2. Position the worm so that it aligns with the teeth on the discharge chute so that there is little clearance between the worm and the teeth.
- 3. Tighten the nut.
- 4. Operate the chute crank.
- 5. Readjust if it does not rotate easily.

3.5 Slip Clutch Adjustment:

- 1. Tighten the twelve hex locknuts in a cross sequence until the springs are fully compressed.
- 2. Back off one full turn on each nut in a cross sequence.

3.6 Installation:

- 1. Drive the tractor to the rear of the snowblower. The tractor must be fitted with a quick hitch pin. See figures 3 and 4.
- 2. Turn the engine off.
- 3. Put the tractor in gear and place the direction control lever in the forward position.
- 4. Put the PTO control in the "ON" position.
- 5. Slide the snowblower onto the quick hitch pin and at the same time, guide the Ujoint assembly onto the PTO shaft.
- 6. Put the self-locking pin in the quick hitch pin.
- 7. Mount the locking strap and two spacers on the left side of the quick hitch adapter with two 1/2-13x4.5 hex bolts. The top spacer goes through the lock strap (which is part of the housing weldment) to keep the snowblower from rotating.
- 8. Put the PTO control in the "OFF" position.
- 9. Put the direction control lever in the neutral position.
- 10. Raise and lock the kick stand.

3.7 Removal:

- 1. Turn off the engine.
- 2. Lower and lock the kick stand.
- 3. Remove the locking strap and spacers.
- 4. Remove the pin in the quick hitch pin.
- 5. Put the snowblower off the quick hitch pin or back the tractor away from the snowblower.

- 7.

Figure 4

STORAGE

4.1 Clean and lubricate the snowblower as directed in section 4.

CAUTION:

Do not use harsh or abrasive cleaners on any painted surface. Do not allow gasoline or oil to remain on any silk screened surfaces.

- 4.2 Inspect parts for damage and wear.
- 4.3 Put paint or lubricant wherever paint has been removed.
- 4.4 Place in a cool, dry area.

SET-UP INSTRUCTIONS

- 6.1 Remove the snowblower from the shipping container.
- 6.2 Fasten the crank support to the left side of the snowblower frame with the two 3/8-16 x 2.00 hex bolts and 3/8-16 lock nuts.
- 6.3 Remove the clamps from the discharge chute.
- 6.4 Put a film of grease on the bottom of the discharge chute.
- 6.5 Set the discharge chute on the blower outlet, aligning the teeth with the worm. Replace the clamps.
- 6.6 Slide the chute crank from the rear through the top hole in the crank support.
- 6.7 Slide the front end of the crank into the U-joint of the worm gear assembly and secure with a hair pin cotter.

Five Year Limited Warranty

GEM, PROFFESSIONAL G AND TWO-WHEEL PRODUCTS

Gravely hereby warrants to the original purchaser that all GEM, Professional G and Two-Wheel products shall be free of defects in material and workmanship for **five years** from date of purchase when used exclusively for personal or household use. Gravely will provide for the replacement of any part found to be defective. Parts and labor will be free of charge for **two years** from date of purchase. Parts but not labor will be free of charge for **three years** (36 months) thereafter.

This warranty is subject to the following exceptions and limitations.

- Purchaser Responsibilities:
- Maintenance and minor adjustments per Operators Manual.
- Notification of need for warranty service
- Transportation of the product to and from the place warranty repair.
- *****

Product Registration:

- Return of Registration card to validate warranty.
- Rental Use: 90 days parts and labor
- Products used for rental purposes.
- *****

Commercial Use:

- Professional G Two years, parts and labor.
- Two-Wheel Two years, parts and labor.
- GEM 90 days, parts and labor
- *****

Warranty Service:

- For warranty service contact any Gravely dealer.
- For the name and location of the Gravely dealer in your area and for further warranty information contact Gravely.

Engines, engine accessories.

- Covered only by engine manufacturers warranty.
- Batteries One year pro-rated.
- Exclusions: No Warranty
 - No warranty is extended for normal maintenance, services and normal replacement items such as Spark Plugs, Oil, Oil Filters, Air Filters, Belts, Light Bulbs, Headlights, etc.
 - No warranty is extended on any product that has been altered, misused, mis-assembled, improperly adjusted, neglected or damaged by accident.
 - No warranty is extended for service completed by someone other than an Authorized Gravely Dealer.
 - No warranty is extended on any attachment not approved by Gravely nor any parts that are not genuine Gravely parts.
 - No warranty is extended on engines and engine accessories.

Gravely reserves the right to incorporate any change in design into its products without obligation to make such changes on products previously manufactured.

DISCLAIMER OF FURTHER WARRANTY

Gravely makes no warranty, express or implied, other than this warranty. The implied warranties of merchantability and fitness for particular purpose are hereby disclaimed. Repair or replacement of parts proving to be defective in material or workmanship shall be the exclusive remedy for breach of this warranty. Gravely shall not be liable for incidental or consequential damages, including but not limited to damages for inconvenience, rental or purchase of replacement equipment, or for loss of profits or other commercial loss, resulting form a breach of this warranty.

Some states do not allow limitations on how long an implied warranty lasts, so the above statement may not apply to you. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you. This warranty gives you specific legal rights, and you may have other rights which vary from state to state.
